# Car Count Tally Sheet

Please count all private cars and vans traveling on the road you have been assigned ONLY in the direction(s) indicated.

Before tallying a car if possible do a brief scan through the windows for children of school age. If you can clearly see there are no children do not count that car. If the windows are tinted or you are unsure if there are children in the car please do count them as we assume most cars traveling these roads are destined for school.

For each car mark a | and when you finish five marks . When you finish twenty marks go to the next line and record the time if possible. Start your count at \_\_\_\_\_ (time) and end at \_\_\_\_\_.

TIME	COUNT
EXAMPLE 8:20 AM
